

# Artwork Specification

Artwork should be in a Mac compatible format, created using any of the following software:

***Quark Xpress, Adobe InDesign, Adobe Illustrator, Adobe Photoshop, Macromedia Freehand.***

Files created using other applications may be acceptable, but an extra charge may be incurred for any time spent converting them to a suitable format. We can design cards from Microsoft Word mock ups, but again this will be charged for.

Our standard document size is shown above, this allows 1.2mm bleed all round if the design runs off the edges.

Please call if there is anything you would like clarified.
